

General Price List

Effective May 24, 2023

An important note about this list

The funeral industry's "General Price List" (GPL) is highly regulated by the US Federal Trade Commission (FTC). The FTC requires that all funeral establishments provide a GPL upon request and presumes that all funeral establishments are conventional establishments offering caskets, cremations, and embalming.

As such, the GPL requires a number of disclosures that don't apply to the only distinctive service we offer: natural organic reduction, also called human composting. So when you see a "Federal Disclosure" that seems confusing or out of place, it is possible that it is exactly that—a disclosure that we have to make, but which is not actually relevant in this specific situation. Feel free to ask us about anything that isn't clear.

A Note from Recompose

Because Recompose does not stock containers for bodies like caskets and air trays, we cannot ship a body by air as other funeral establishments sometimes do. We can forward remains to another local funeral home who provides such a service. In the case of such local forwarding, the charge includes basic services of funeral director and staff; a proportionate share of overhead costs; removal of remains; preparation of remains, NO embalming (Recompose does not offer embalming), and local transportation. Additional out-of-area transportation will be priced as above.

MISCELLANEOUS SERVICES

Recompose may charge for goods or services it buys from outside vendors on your behalf, including obituary notices, disposition authorization fees, or death certificates. We do not add an additional administrative fee for this, and those services are billed to cover the cost charged to Recompose.

- Recycling of air trays and shipping containers used for receiving of remains - \$0

Please note: because of the variety of regulations involved, Recompose does not ship soil internationally.

Federal Basic Services Fee Disclosure

This fee for our basic services and overhead will be added to the total cost of the funeral arrangements you select.

- Basic Services and Overhead Fee - \$0

A Note from Recompose

We are required to have a Basic Services and Overhead Fee on our GPL, but because Recompose only offers one type of disposition (human composting), and because we include our overhead costs in that fee, we did not feel it was appropriate to have an additional "Basic Services and Overhead Fee." Since we were required to list a price here, we have set it to \$0.

The following disclosures are required to be included on the GPL by the Federal Trade Commission:

Federal Embalming Disclosure

Except in special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial.

A Note from Recompose

Recompose cannot accept bodies that have been embalmed, as embalming conflicts with Recompose's process. An embalmed body cannot safely go through the human composting process.

Federal Casket Price List Disclosure

All funeral homes are required to provide a casket price list upon request.

A Note from Recompose

All funeral homes that sell caskets are required to provide a casket price list upon request. Recompose does not offer caskets.

Federal Outer Burial Container Disclosure

All funeral homes are required to provide an outer burial container price list upon request.

A Note from Recompose

Recompose does not sell outer burial containers (sometimes referred to as "vaults").
